Australia's largest selection of used process equipment.

M&E Equipment Traders are the biggest stockists of used process equipment in Australia, with more than 40 categories of products. We specialise in the food processing, chemical, pharmaceutical, beverage and packaging industries, as well as catering to general industry.

M&E specialise in the acquisition and dismantling of plants that large companies no longer require. We handle everything from a total factory strip-out to a redundant processing line or even individual machines.

We sell the biggest range of tanks in Australia, from 50 litres up to 100,000 litres – more than 200 stainless steel tanks for storage, mixing, processing and other applications.

Our vast A to Z product range includes air compressors, blowers, boilers, centrifuges, conveyors, decanters, dehumidifiers, driers, dust collectors, evaporators, extruders, fans, fillers (liquid and powder), forklifts, gearboxes, generators, heat exchangers, hoppers, hydraulics, instrumentation, packaging, powder mixers, pumps, scales, sieves and silos.

We carry equipment to suit all types of processes such as: milling, liquid and dry blending, filtration, screening, filling, water treatment and purification. M&E can provide your company with complete turnkey lines right down to all your other ancillary needs.

A great proportion of our stock comes from multinationals and leading Australian companies – A1 used equipment in perfect working order. At M&E you'll save up to 80 per cent on the price of new equipment. If we haven't got exactly what you want, we can offer an alternative or try to source it for you.

Today our range is bigger, better and even more accessible at our new 24,000 square metre Sydney complex. It's where you'll find everything catalogued on our extensive website, www.equipmenttraders.com.au, which is constantly updated with great equipment offers from M&E... your total equipment solution specialists.
